

# Fill in the Blank

1. COMPOST is created from a mix of food scraps and yard waste.
2. All our surroundings including the air, soil, water, plants and animals make up our ENVIROMENT.
3. Paint, electronic devices and motor oil are examples of HAZARDOUS WASTE.
4. LANDFILL are also know as dumps.
5. Any material that comes from a plant or animal that is biodegradable is ORGANIC WASTE.
6. Water bottles are made of PLASTIC.
7. Anything that makes our earth dirty and unhealthy is considered POLLUTION.
8. When we RECYCLE we remanufacture waste into new products.
9. REDUCE waste so less goes to the landfill.
10. When shopping REFUSE to buy plastic materials.
11. The idea to REPURPOSE involves transforming stuff we would normally throw away into something useful.
12. Do not buy what you do not need, RETHINK first.
13. Donate used clothing, household items, and materials to be REUSED before throwing it away.
14. Food scraps, yard clippings and organic materials are placed together to ROT creating compost.
15. The aim of sending nothing to a landfill is known as ZERO WASTE.
